Bedside Cot Technical Details

Product Features

- Our product is designed and manufactured in accordance with TSE and European standards in terms of safety and health conditions.
- The height of the bed base can be adjusted in 10 different levels. In this way, it can be used in compliance with all parent cots.
- With the help of metal hooks on the front of the bed base, it can be used by fixing it practically to the side board of the parent b<u>ed</u>.
- It is suitable for babies to be used for 0-6 months.
- There is a 50x90x7 cm foam mattress in the product.
- Bed sponge is produced in the most suitable density recommended for babies. The zippered case can be easily removed and washed in the washing machine in a delicate setting.
- There is a bed metal hanger on the back plate to hang the basic items of babies such as pacifiers, handkerchiefs and diapers.
- Curve method is applied in all parts for the safety of babies and parents.
- The product can also be used as a sitting unit during the periods when babies are suitable for their development age.

Material Information

- The edges of the melamine particle boards are covered with 0,40 and 2 mm thick PVC foil applied with polyurethane based glue.
- The surfaces of the metal materials are covered with electrostatic powder paint and have a 10-year stainless steel warranty.
- Plastic materials are produced from ABS raw materials and do not threaten human health.
- Local and foreign brands which manufactures products in accordance with TSE (Turkish Standards Institution) and Europe standards were preferred in the attaching materials.

Instructions For Use

- The product should be used according to the rules specified in the user manual included in the package.
- For the safety of babies, it should not be used in areas other than the parent bed.
- It should be paid attention that the floor of the room where the product will be used is smooth.
- When moving the product in the room, it should never be moved by sliding on the floor. It should be carried in a balanced manner with at least two / 3 people.
- You should not go beyond the standard designs determined by Çilek Furniture, never change the location of the fixed parts in the product, and never add parts.
