TECHNICAL DETAILS

•Non-hazardous, safe, glossy polystyrene material is used on the outer surface of GTI car beds.

•The melamine chipboards are 16 mm thick and at E1 oscillation standards which are resistant to scratching, fading and humidity. The edges are covered by a 2 mm tape that provides a soft surface.

•The leatherette sports seats at the bedhead and the bed inner leather upholstery offer soft finishing to ensure protection against impacts. The sporty stitches have the feel of an actual sports car.

•The windows on both sides of the GTI car bed are made of shatter-proof plexiglas, and are at DIN EN 14 072 standards. Plexiglas windows also serve as the bed railing in addition to a sporty outlook.

•For all lighting accessories, including the headlights, fog lights, wheel rim lights, lower body light and rear stop lights, energy-saving, long service life and non heat-dissipating LED technology is utilized.

•The lights work on a 100 % safe 12 volt adapter system.

•In the GTI car bed, special 90x195 cm mattresses with oval front-end are used. The custom mattresses are sold separately and are not included in the package contents.

•The Music Player used at the bedhead supports USB and Micro SD inputs, and can be charged through the USB port. You may enjoy your music and radio in the comfort of your car bed by connecting your phone to the Music Player by a single cable or through bluetooth. You can also use the Music Player externally on a desk or a bed stand. The Music Player is included in the GTI car bed.

•GTI car bed comes complete with a remote control. With the special Çilek logo shaped remote control, you may control the 4-level sound and light system of your car bed, and also use the horn.

•GTI car beds are manufactured according to high safety and quality norms determined by LGA in Germany. They are at TÜV-GS and TSE standards.

IMAGINE WITH ÇİLEK!

The Çilek Car Beds help to improve children's imagination, and encourage them to love their rooms, and sleep in their own beds. The fun in Çilek rooms turns into dreams, and dreams turns into creativity and vision.
