

Imagine

ROMANTIC BABY

- **Target Mass:** Parents who have or are expecting Babies
- **Theme:** Classical Style, Rich Details

- **Segment:** Babies
- **Features:** White Body, White Bars and Profiles

- **Age Range:** 0-14 Years
- **Certificates:** E1, TSE

- We developed a module that becomes a bed when pulled out so that our mothers can be close to their babies.

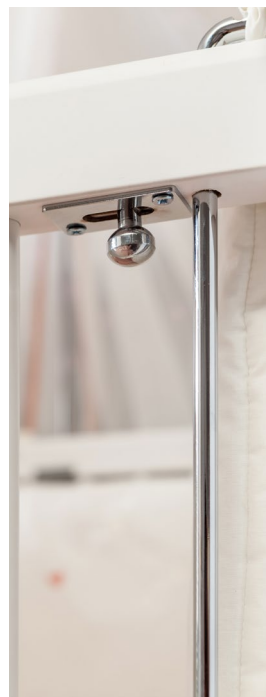

- We decorated all four sides of our bed with the sleep set that is special for the series.

- We used our telescopic railing specially patented to **Çilek** also in this bed, just like our other baby beds.

- This area may also be used as storage for toys and articles when an extra bed is not purchased.

- Compartmented drawers are available in order to sort the articles.

- Thanks to the portable hanging apparatuses, one of which is illuminated and the other is not, it will allow the garments to be hung without being jammed and used easily.
- The lowest hanging apparatus is designed so that it may be removed at your option, and the garments can be hung more easily as the kid grows.

- The large number of shelf systems in the closet will help you in sorting and organizing your articles.

- Thanks to the illuminated hanger apparatus, you may collect and place your articles without bothering your baby who is asleep.

• The dresser available in our Romantic Youth series is in harmony with the baby bed.

• Shelf with hanger apparatus that you may use for different purposes in the room.

Technical Details

- The main material is non-hazardous melamine coated chipboard at E1 standards, resistant to scratching, fading and humidity.
- 16 and 8 mm thick chipboard is used.
- Edges are covered with 0.4 and 2 mm Edge Strips.
- MDF Tabs are used in the product. MDF Tabs are coated with PP Foil.
- Hanger rods are made of Anodized Coated, Extruded Aluminum Profiles.
- Doors have Spring Hinges.

Used Materials

- MDF Profiles,
- Adjustable Legs in the Closet against Floor Irregularities,
- 2 Hanger Rods are used in the Closet. (1 with and 1 without Lighting),
- Hanger Rod with LED Luminaire operating on AAA Batteries in the Closet,
- Wall Fixation Apparatuses in High Modules to prevent from falling over,
- Tandem Rails on Drawers.
- Fittings Elements in compliance with the TÜV-GS and TSE Standards are used.
- Plastic parts used in the series are made of injection ABS raw material and do not pose any hazards for human health.
